1.This application is in condition for allowance except for the following formal matters:

Non-elected claims 1-7 and 20 need to be cancelled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2.Applicant's election with traverse of Group II, claims 8-19 in the reply filed on April 20, 2005 is acknowledged. The traversal is on the ground(s) that the inventions are very closely related and should not be restricted. This is not found persuasive because the inventions are submitted to be distinct for the reasons generally set forth in the restriction requirement. Concerning Groups II and III, it is rather clear that the covering method set forth in Group III does not require a molding step as set forth in Group II and that is why these groups are considered to be separate or distinct.

The requirement is still deemed proper and is therefore made FINAL.

3.Claims 8-19 are submitted to be allowable over the prior art of record in that such art does not disclose, teach or suggest the overall aspects of making a front lamp assembly by determining where a sink mark will occur on a molded reflector and then preventing the formation of the sink mark by molding a glare prevention feature on the reflector in the same location as the sink would have been.

4.The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
